PRECISION INTEGRITY SERVICE

STATEMENT OF QUALIFICATIONS

COMPANY OVERVIEW

WHO WE ARE

Nexus 3D Consulting is a geospatial service provider with teams that perform 3D laser scanning, UAV operations, data processing, and licensed land surveying services.

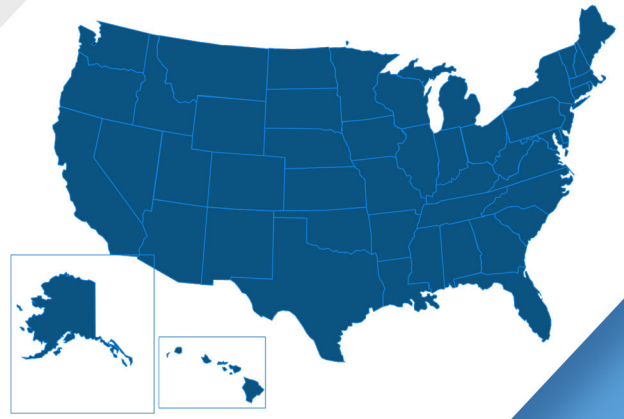

We understand that technology integration can be challenging. We are committed to helping our clients increase the use of innovative technologies while diminishing frustrations, shortening learning curves, reducing project timelines, and saving money throughout the process.

OUR PASSION
COMBINES A LOVE
FOR 3D TECHNOLOGY
INNOVATIVE ENTREPRENEURSHIP
AND ULTIMATELY CUSTOMER SERVICE

We are committed to excellence in every aspect of our business. Our primary goal is client satisfaction and we strive to always be responsive, reliable, and resourceful. We build long term relationships with our clients in order to customize data capture and processing methods to best fit each client's needs individually, ensuring consistency in project delivery.

SERVICE IS PRIORITY ONE

We want to simplify the implementation of 3D technology into your projects. By utilizing our project experience, technical knowledge, and industry relationships, we can help reduce your project timelines, decrease your overall costs, and improve safety on the job, while providing you with the highest quality deliverables.

“Many companies are falling behind their competitors, and we are here to help by being that value added service”.
